- Region Treasurer – -----“-----

These were told with specific reference to - Things did / still do to 'put down the food' and specifically referring to when first became abstinent and how that was achieved and what continue to do to maintain abstinence.

- Reading of Action Plan definition from tools pamphlet

'An action plan is the process of identifying and implementing attainable actions, both daily and long – term, that are necessary to support our individual abstinence and emotional, spiritual and physical recovery. While the plan is ours, tailored to our own recovery process, most of us find it important to work with a sponsor, fellow OA member and / or appropriate professional to help create it. This tool, like our plan of eating, may vary widely among members and may need to be adjusted as we progress in our recovery.'

For example, a newcomer's action plan might focus on planning, shopping for and preparing food. Some members may need a regular fitness routine to improve strength and health, while others may need to set exercise limits in order to attain more balance. Some of us may need an action plan that includes time for meditation and relaxation or provides strategies for balancing work, personal interactions with family and friends, and our program. Others may need help to organise their homes; deal with their finance; and address medical, dental or mental health issues.

Along with working the Steps on a daily basis, an action plan may incorporate use of the other OA tools to bring structure, balance and manageability into our lives. As we use this tool, we find that we develop a feeling of serenity and continue to grow emotionally and spiritually while we make measurable progress one day at a time.'

Personal Definition of Abstinence

Actions required.

- a) What does abstinence mean to me? b) What are my plans for actions to achieve /maintain abstinence today? & c) What do I see are the benefits of abstinence in me or others?

Abstinence Actions

These actions helped us to become abstinent and stay abstinent. Maybe they will work for you, too.

- When you feel resentment toward another member, talk to the person about it, and ask your Higher Power for help in letting it go.

Abstinence Is ...
• Abstinence is the ability to control anger and settle differences without resorting to food for comfort.

- Abstinence is the willingness to pass up immediate pleasure in favor of the long-term goal.
- Abstinence is the ability to stick to a commitment despite heavy opposition or discouraging setbacks.
- Abstinence is the capacity to face unpleasantness, discomfort or frustration without complaint or collapse.
- Abstinence is the ability to make a commitment and stand by it. Lack of abstinence is exploring endless possibilities and giving up too soon.
- Abstinence is keeping your word and coming through in a crisis.
- Abstinence is the art of living in peace with that which we cannot change, the courage to change what we can and the wisdom to know the difference.
